

Internship - DevOps Engineer

About us:

As one of the region's largest telecommunications infrastructure services provider, CETIN Group drives digital transformation by providing cutting edge telecommunications infrastructure solutions.

The CETIN Group means four infrastructure operators - CETIN Bulgaria, CETIN Hungary, CETIN Serbia and CETIN in the Czech Republic with approximately 3000 employees. With the organization we are constantly working on improving and managing technology demands, our focus is to deploy the best in class telco infrastructure and meet challenging market demands.

CETIN Serbia is a provider of fixed and mobile infrastructure services to telco operators, internet service providers and other companies in the Serbian and regional market and was founded in 2020 after undergoing a legal separation from Telenor Serbia

ROLE OVERVIEW:

We are looking for a DevOps engineer with knowledge in some of following environments: ASP.NET, SQL, JavaScript, Php, Python.

You will be member of a small team that develops and operates applications used by various Cetin expert teams. Applications manage mobile network rollout and quality as well as various services. The team is in the middle of transformation towards agile way of work based on KANBAN methodology.

MAIN REQUIREMENTS:

- University degree in relevant science or a related field or student of a final year
- Knowledge and/or experience in some of listed technologies: ASP.NET, SQL, JavaScript, Php, Python.
- Team player, self-driven and motivated to learn.
- We cooperate with colleagues from other countries, so beside Serbian, English is our working language also, and you'll need to be able to express yourself well in both written and verbal.

WHAT WE OFFER YOU:

- Working with talented people willing to share their professional knowledge
- Open working space and flexible working hours
- Paid internship and career development opportunities
- Laptop, mobile phone and tariff package in line with company policy
