- Study Programme  
University of Belgrade

10/2007

Belgrade, Serbia

- Courses  
- Software Engineering

## SKILLS

Java C C++ MVC PHP Java Script

HTML CSS JSF JSP

Windows XP, Win7/10 iMacros Selenium

IBM Rational Functional Tester

Microsoft Word/Powerpoint/Excel

## PERSONAL PROJECTS

### Website for a Tourist Agency

- Was done with HTML, CSS, Java Script and JQuery

### Website intended for college students to find a job

- Was done mainly in PHP and Java Script with some HTML and CSS using MVC architecture.
- The intention behind it was supposed to connect companies with college students looking for employment by emphasizing which specialized skills those students had that those companies needed. The companies and the admins would be able to publish tests that would be used to evaluate potential employees or interns.

## ACHIEVEMENTS

none
