- 2015 -** University of Belgrade, Faculty of
2019 Mathematics, undergraduate studies :
Computer science
- 2011 -** First Belgrade Gymnasium, Certificate of
2015 excellence
- 2003 -** Elementary school "Josif Pancic", the
2011 student of the generation, Certificate of
excellence

PROJECTS

- A program for correcting image distortion - C++; libraries: openCV, Eigen
- Reaching definitions - python3;
library: PLY library (Python Lex Yacc)
For a given three-address code and a location, an output is a list of instructions where given definition is used.
Finding reaching definitions is an important part of compiler optimizations.
- Data set analysis - python3 and relevant libraries (scipy, numpy, matplotlib...)
