Address Obalskih radnika 7/27, Belgrade, Serbia
Telephone +381 64 6621862
E-mail stefanakrivokuca96@gmail.com
Nationality serbian
Date of birth Nov 30. 1996.
Gender Female

Education and training

Place University in Belgrade, Faculty of Electrical Engineering, Department of Telecommunications and Information Technology

Date 2015. - 2019.

Experience I did a two-week internship in Telekom a. d. Srbija, where I had an opportunity to see how radio communications are achieved and have a look into a very complex procedure that is needed to make and maintain telecommunications networks which are the base of the modern world.(Sept. 2018.)

Professional interests I like radio communications and I am interested in implementation and optimization of mobile networks from second to fifth generation. Anything related to this will bring the best of my abilities due to the motivation to work on something that I like. Although these are my strongest interests at the moment I am willing to learn and grow professionally with any subject that will expand my telecommunications knowledge.

Personal skills and competences

Native language Serbian
Other languages English, Spanish and learning Portuguese

Self-assessment	Understanding		Speaking		Writing
	Listening	Reading	Spoken interaction	Spoken production	
English	excellent	excellent	good	good	good
Spanish	excellent	excellent	good	good	good

Social skills	I am very open minded person and I like to communicate with people and try to solve any problem by mutual agreement and compromise. I like people and I think that team work can be very productive. I was student-mentor where I helped and advised freshmans to deal with 1st year of faculty.
Organizational skills	I like to plan my responsibilities. Every task that I put before me is divided into parts that I solve in a certain period of time that I give to myself. This way, I use my time better and create a practical approach to the problem that has helped me a lot in education and self improving.
Technologies	I am familiar with C/C++ and I know how to use MATLAB, Visual Studio, Code::Blocks IDE and Android Studio. I am in process of learning about Linux operating system.
Other skills	I have a category B drivers licence.
Personal interests	I like challenging myself and I am ready to start building my career and get the best of my abilities. Although I'm studying engineering I try to be versatile and improve myself with any experience I can get whether it is related to science, art, society, culture, travel, history etc.
